

SENTRY HC HOTSPOT - benzalkonium chloride gel

Sergeant's Pet Care Products, Inc.

HOTspot Skin Remedy for dogs and puppies is formulated to be effective for skin irritations. Specifically kills *staphylococcus intermedius* bacteria. Hot spots in dogs are commonly associated with *staphylococcus intermedius*. Kills topical bacteria, fungus and viruses. HOTspot is indicated for superficial cuts, scrapes, and abrasions. Best of all HOTspot contains no alcohol and is a non-stinging formula.

Signs of Hot Spots: Hot spots are usually accompanied by incessant rubbing, scratching and biting due to intense itching. Other signs are moist reddened areas, hair loss, and flaky skin. Hot spots are usually warm to the touch.

Directions for Use: Trim the hair around the sore. Wash the area with mild soap and water, rinse and pet dry. Apply HOTspot to affected area using the applicator tip. Does not require dabbing on with a cotton ball.

ACTIVE INGREDIENT

Benzalkonium Chloride

GENERAL PRECAUTION

Consult veterinarian if any problems persist or are of concern.

WARNING

Do not use on puppies under 6 weeks of age.
